

Your Grammar Integration Checklist

Use this checklist to plan your next lesson with well-timed grammar clarification:

Before the Lesson

- Identify one grammar structure to focus on
- Prepare meaningful exposure material (video, images, discussion prompts)
- Write 2-3 guided noticing questions
- Plan a communicative activity for immediate use

During the Lesson

- Start with exposure — no grammar explanation yet
- Guide students to notice patterns themselves
- Keep your clarification under 5 minutes
- Move immediately to meaningful practice

After the Lesson

- Note which structures need recycling next week
- Collect error patterns for delayed feedback
- Keep your clarification under 5 minutes
- Plan a varied context for the next encounter

Remember

You're not delivering grammar. You're building cognitive pathways.

Notes:
